# 1. Introduction

Moray Offshore Windfarm (West) Limited (Moray West) contracted EOLOS Floating Lidar Solutions S.L. to install a Floating LiDAR Buoy at the Moray West Offshore Wind Farm Site on 2<sup>nd</sup> December 2018. The equipment comprises the Floating LiDAR buoy and the mooring system, including clump weight and mooring chain.

This notice to mariners is to inform that the Floating LiDAR deployed at Moray West Site will be decommissioned, including the mooring systems (floating clump weight and mooring chain). It is anticipated that the recovery of the Floating LiDAR will take place from, and no earlier than the **6<sup>th</sup> December 2020**, weather permitting. The recovery of the Floating LiDAR will be carried out by EOLOS Floating Lidar Solutions S.L, and operations are expected to be complete in one day.

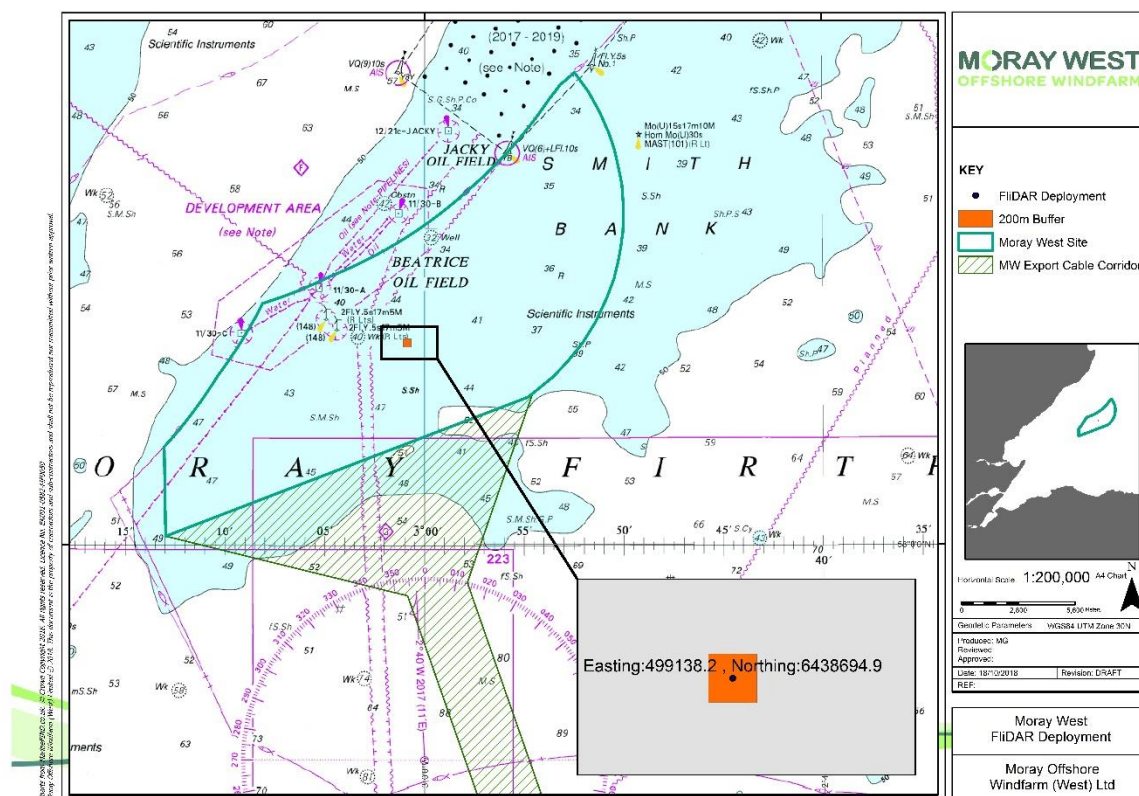

This Notice to Mariners will be updated and reissued to confirm that the Floating LiDAR has been successfully retrieved from Moray West Site.

The coordinates of the Floating LiDAR Buoy location are presented in the below table and illustrated in Figure 1.
