

Notice to Mariners

Awareness of incorrect AtoN light characteristic – July 2025

Moray West Offshore Wind Farm

Issue date	30-July-2026
Version	01
Activity	Awareness of incorrect AtoN light characteristic

Revision History

Version	Issue Date	Status	Updates
01	30-July-2026	Final	First Issue

1. Introduction

This Notice to Mariners is issued to advise mariners that one of the Moray West Aids to Navigation (AtoN) is currently exhibiting an incorrect light characteristic. AtoN MW-D09 is presently displaying a yellow flash every 2 seconds, whereas the published characteristic is a yellow flash every 5 seconds. Works are underway to rectify the issue at the earliest opportunity. Until repairs have been completed, mariners are requested to be aware of this discrepancy when navigating in the vicinity of MW-D09.

The Moray West site is located on the Smith Bank in the Outer Moray Firth, approximately 22.5km from the Caithness coastline. The offshore wind farm site covers an area of approximately 225km². The offshore wind farm site is given in Figure 1.

The site is now under operational control and with the exception of MW-D09, all operational lighting has been installed and functional as per the Moray West Lighting and Marking Plan (Figure 2).

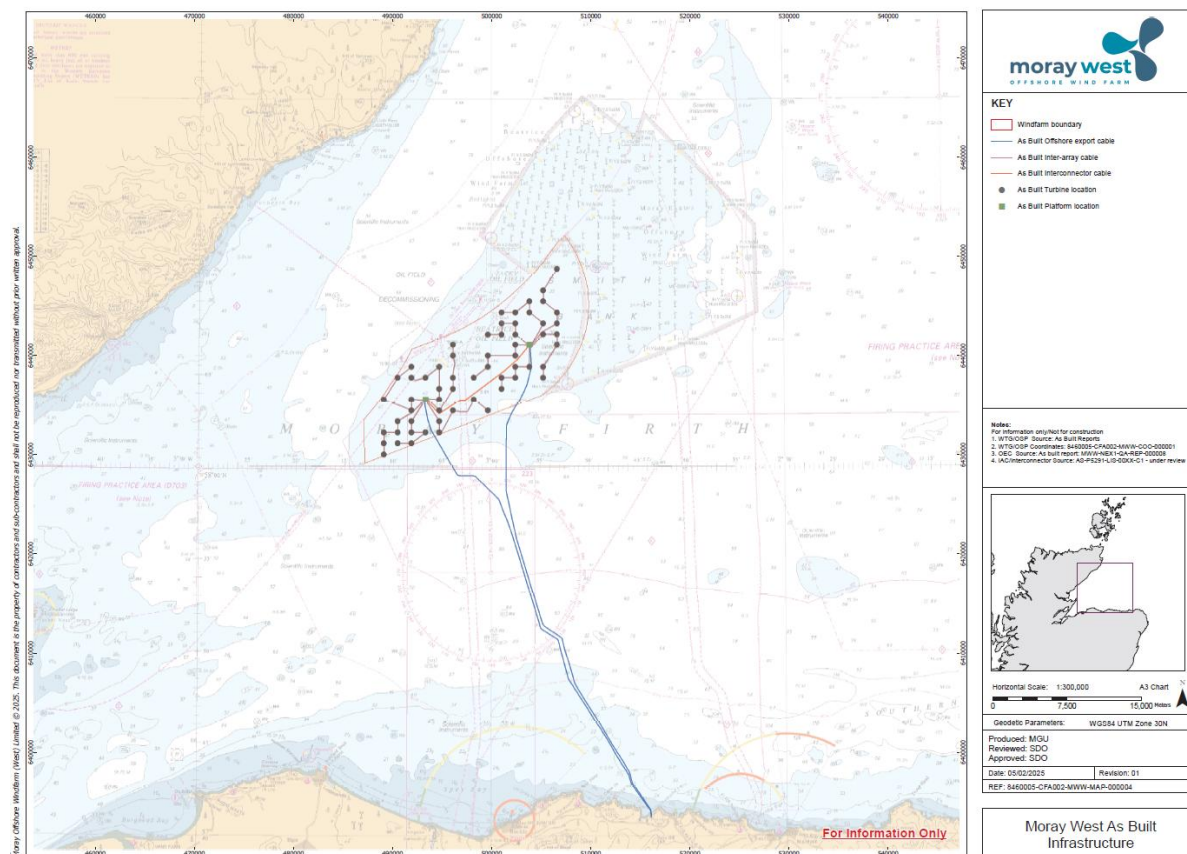

Figure 1. Moray West Wind Farm Site.
