

NOTICE TO MARINERS (NTM)

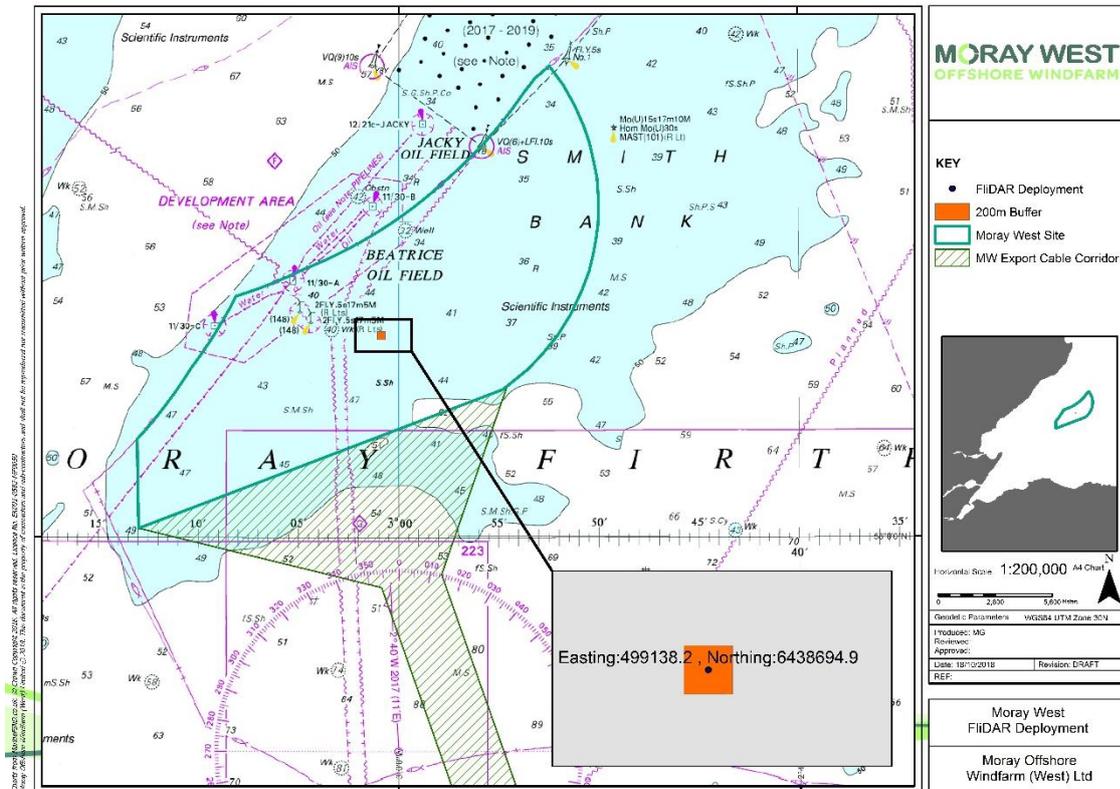

Issue Date	10 th May 2020
Version	01
Activity Type	Clump weight and mooring chain

Please be advised that Moray Offshore Windfarm (West) Limited (Moray West) had positioned a Floating LiDAR Buoy and mooring system (clump weight and mooring chain) at the Moray West Offshore Wind Farm Site. The Floating LiDAR Buoy has become detached from its site location and operations to recover and/or guide to shore are underway. A separate Notice to Mariners details the recovery operation.

This Notice to Mariners is to inform you and other users of the sea of the presence and location of the currently unmarked clump weight and mooring chain and notification to avoid this location.

As soon as practically possible a marker buoy will temporarily be deployed at the Floating Lidar Buoy's previous site location, see coordinates below, to mark the location and notify mariners of the presence of the clump weight and mooring chain. A further NtM will be issued to notify other sea users of this operation.

Clump Weight and Mooring Chain Location Coordinates	
Latitude (WGS84 Degrees Decimal Minutes)	Longitude (WGS84 Degrees Decimal Minutes)
58° 5.381 N	3° 0.877 W

Clump Weight and Mooring Chain Location
